1. Underlying EBITDA and NPAT from continuing operations excludes the earnings from sites divested in FY2019 in all reporting periods. Underlying EBITDA & NPAT includes pro forma adjustments in FY2017 to i) adjust for the pre-IPO capital structure by applying the post IPO capital structure retrospectively for that financial year, and ii) exclude transaction costs. Refer to slide 21 for a reconciliation of Underlying Profit to Reported Net Profit After Tax.

# COVID-19 impact and response

# FY2020 Highlights (continued)

Our care and village business held up well in the face of COVID-19 and we remain committed to our strategy.

## Continued commitment to our Aged Care strategy

- Short term reduction in care earnings at ramp up and redevelopment sites is **more than offset by development margin and resale gains across the care portfolio**.
- **50% of our care portfolio is now premium beds or care suites** (34% at IPO) as we progress to our target mix of 70%/30% premium to standard rooms. 90 new care suites delivered and 47 care suite conversions completed in FY2020, and a further 245 care suites are currently under construction.
- **Premium DMF and PAC revenue doubled since IPO** and 39% higher than FY2019.
- **Occupancy increased to 93.7%** at sites not affected by development in FY2020.
- **Appointment of Dr Frances Hughes, CNZM as General Manager Nursing & Clinical Strategy**. Dr Hughes has over 30 years' nursing experience and has held senior management and nursing positions on a global level.
- **New clinical information system** now live.

## Sales volumes and margins favourable in light of COVID-19

- Despite COVID-19, Oceania recorded **355 total ORA sales in FY2020, an increase of 45 units and care suites (or 15%) on FY2019** (310 units and care suites).
- **New care suite sales doubled in FY2020 to 114** (57 in FY2019).
  - Total care suite sales volumes (new and resales) to 29 February 2020 (i.e. pre-COVID) were 175 compared to 93 in pcp.
- **New ILU sales flat despite COVID-19** (75 in FY2020 compared to 76 in FY2019).
  - Total pre-COVID ILU sales volumes (new and resales) were 98 compared to 96 in pcp.
- **Development margin remains strong at 33.1%**.
- Average apartment resale price now \$684k, 15.5% higher than FY2019 (\$592k).
- Of the **pre-COVID applications** we had at the start of March 2020, **89% were either sold or under application** as at year end FY2020.

# FY2020 Highlights (continued)

Developments were unavoidably impacted during lockdown but we are back on our sites continuing our build programme and build strategy is unchanged.

## Development pipeline progress

- **176 units and care suites delivered across 6 sites in FY2020.**
- **481<sup>1</sup> villas, apartments and care suites currently under construction** in Auckland, Hamilton, Tauranga, Nelson and Christchurch.
- 217 units and care suites on track to be delivered in FY2021.
- Total development pipeline of 1,851 units and care suites with **86.3% of this pipeline consented.**

## Final dividend declared

- Final dividend per share announced of **1.2 cents per share** (not imputed<sup>2</sup>) bringing **total dividend for the year to 3.5 cents per share**. 50% pay out ratio of Underlying NPAT for FY2020 in line with Board policy.
- Record date of 3 August 2020. Payment date of 17 August 2020.
- Dividend Reinvestment Plan available.

## Balance date change

- Received approval from the Inland Revenue Department to change balance date to 31 March from 2021.

1. 6 sites as at 31 May 2020.

2. The dividends are not imputed due to the availability of existing tax losses.

# Executing our Strategy

## Oceania Healthcare's 2017 IPO Product Disclosure Statement:

Oceania Healthcare is **raising \$200 million of new capital** via the Offer and is seeking a listing on the NZX Main Board and ASX.

The **proceeds of the Offer will be used to:**

- reduce debt to provide financial flexibility to pursue future development projects including projects in Oceania's existing Brownfield Development land bank;
- commence above ground development works at the waterfront Maureen Plowman Village (Auckland);
- commence Stage 4 development of Meadowbank Village (Auckland); and
- fund the acquisition of the freehold title at Elderslea Care Facility (currently leased, Upper Hutt).

These initiatives are intended to **place Oceania Healthcare in an excellent position to meet the needs of New Zealand's elderly, particularly as 2021 approaches and the first of the "baby boomer" generation celebrate their 75th birthdays.**

# Executing our Strategy

We have delivered 579 new units and care suites since IPO, including opening four new premium care facilities at Meadowbank, The Sands, The BayView and Awatere.

# Income statement

Total Comprehensive Income for the period of \$9.9m was down on FY2019, reflecting the change in valuation assumptions driving fair value movements in IP and PP&E.

## FY2020 Summary of Income Statement

NZDm	FY2020	FY2019	Var	FY2018
Operating revenue	193.6	187.0	6.7	184.0
Operating expenses	(178.6)	(175.8)	(2.8)	(165.8)

<b>Total Comprehensive income</b>	<b>9.9</b>	<b>99.8</b>	<b>(89.8)</b>	<b>81.7</b>

## Key IP and PP&E CBRE valuation assumption changes

Drivers	FY2020		FY2019	
<b>Investment Property</b>				
PPGR – Long Term (low-high)	2.50%	3.50%	2.50%	3.50%
PPGR – Short Term (low-high)	(2.00%)	3.00%	0.50%	3.00%
Discount Rates (low-high)	14.13%	20.25%	14.00%	20.00%
Average Incoming Price - Villas	\$421,267		\$405,973	
Average Incoming Price - Apartments	\$814,160		\$819,535	
<b>Property, Plant and Equipment</b>				
Cap rate (low-high)	11.00%	17.75%	11.00%	17.80%
EBITDAR per bed (low-high, \$000s)	\$8.86	\$15.91	\$8.61	\$19.23
Average Incoming Price - Care Suites	\$268,209		\$258,183	

- Significant changes in CBRE's valuation assumptions led to a negative fair value movement in IP. This was offset by an increase in the fair value of PP&E (Care assets), reflected in Other Comprehensive Income.
- Property price growth rates heavily moderated in the short term, kept constant longer term, reflecting longer term sector positivity.
- Small increase in discount rates across all sites.
- DMF revenue increased by 27.5% to \$29.3m in FY2020 (\$22.9m in FY2019).

1. Fair value movement includes impact from right of use asset (Everil Orr village). This is a lease arrangement under which Oceania is the village operator. There is a corresponding rental expense of \$19.2m (excluded from Underlying Profit). Note Everil Orr also contributed \$1.5m to DMF revenue (\$0.7m in FY2019).

# Underlying earnings

Underlying EBITDA of \$63.5m, consistent with the prior corresponding period.

## Reconciliation of Underlying Adjustments

NZDm	FY2020	FY2019	Var	FY2018
Reported Net profit after tax	(13.6)	45.4	(59.0)	77.0

## Segmental Underlying Adjustments

NZDm	FY2020	FY2019	Var	FY2018
Aged Care (ex. care suite margins)	20.0	24.9	(4.9)	28.9
Retirement Village (incl. care suite margins)	61.3	56.9	4.4	49.8
Other	(17.8)	(17.5)	(0.2)	(14.9)
<b>Underlying EBITDA</b>	<b>63.5</b>	<b>64.3</b>	<b>(0.7)</b>	<b>63.8</b>
less Divested Site Earnings	-	(0.5)	0.5	(2.0)
<b>Underlying EBITDA - Continuing operations</b>	<b>63.5</b>	<b>63.8</b>	<b>(0.3)</b>	<b>61.8</b>
<b>Underlying NPAT - Continuing operations</b>	<b>42.9</b>	<b>50.7</b>	<b>(7.8)</b>	<b>50.8</b>

- Pro-forma Underlying EBITDA was \$0.3m below FY2019.
- ORA sales volumes, and therefore realised resale gains and development margin heavily impacted by COVID-19 in the final quarter of FY2020.
- Higher depreciation expense as portfolio of high value care assets grows.
- Higher interest costs from completed developments.

1. Rental expense of \$19.2m in FY2020 relates to the right of use asset at Everil Orr village. There is a corresponding credit in IP which is also removed as part of this adjustment.

2. "Other" is an aggregation of line items that are individually less than \$2.0m and includes Gain on sale / Loss on sale or disposal of decommissioned assets. See note 2.1 of the FY2020 financial statements for further detail.

# Care segment

Higher occupancy and premium revenues in FY2020 reflect the ongoing transformation of our care portfolio toward a higher proportion of premium care beds. Variance in aggregate earnings for the care segment largely reflect reduction at sites ramping up or under redevelopment and conversion.

## Aged Care Underlying EBITDA

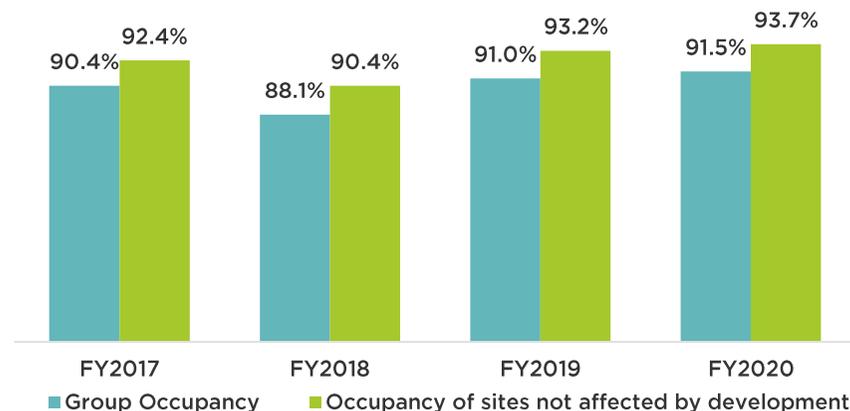

NZDm	FY2020	FY2019	Var	FY2018
Total aged care operating revenue	164.2	161.7	2.6	159.6
Total aged care expenses	(144.2)	(136.7)	(7.5)	(130.7)
<b>Aged Care Underlying EBITDA</b>	<b>20.0</b>	<b>24.9</b>	<b>(4.9)</b>	<b>28.9</b>
EBITDA per care bed / suite (all sites) <sup>1</sup>	\$8,803	\$10,583	(\$1,780)	\$11,742

### Plus: Other aged care related earnings included within the Village Segment<sup>2</sup>

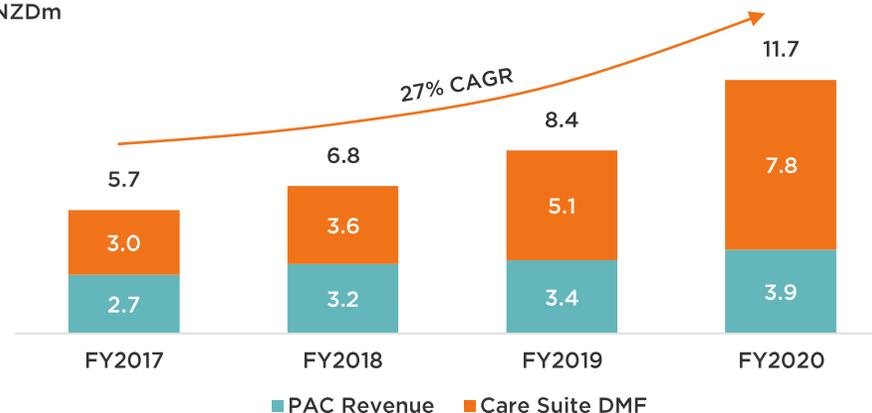

Care suite development margin	12.9	7.1	5.8	3.0
Care suite resale gains	3.2	3.4	(0.2)	3.7
<b>Total Aged Care related Underlying EBITDA</b>	<b>36.1</b>	<b>35.4</b>	<b>0.7</b>	<b>35.6</b>
Total Aged Care related Underlying EBITDA per bed / suite (all sites)	\$15,893	\$15,035	\$857	\$14,443

Short term reduction in care earnings at ramp up and redevelopment sites is more than offset by development margin and resale gains across the care portfolio.

## Occupancy rates

## Premium revenue NZDm

1. Based on all occupied beds across all care sites, including facilities that are ramping up / down as a result of past / future development.

2. Development margin & resale gains on care suites are included within the Village Segment for underlying profit and statutory reporting purposes as the ORAs are issued by Oceania Village Company Limited. As these margins are in lieu of daily premium charges under the traditional model, these earnings are aggregated above to present a more complete picture for the Care segment.

# Village segment

FY2020 Underlying EBITDA of \$61.3m represents an 8% increase on FY2019, primarily as a result of strong growth in villa and apartment DMF revenue.

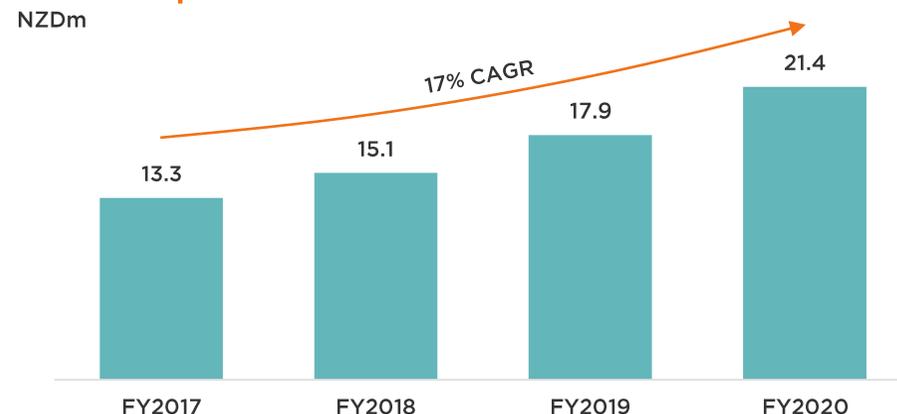

## Village Underlying EBITDA

<b>Village Underlying EBITDA (ex. care)</b>	<b>45.2</b>	<b>46.4</b>	<b>(1.2)</b>	<b>43.1</b>

## Villa and apartment DMF Revenue

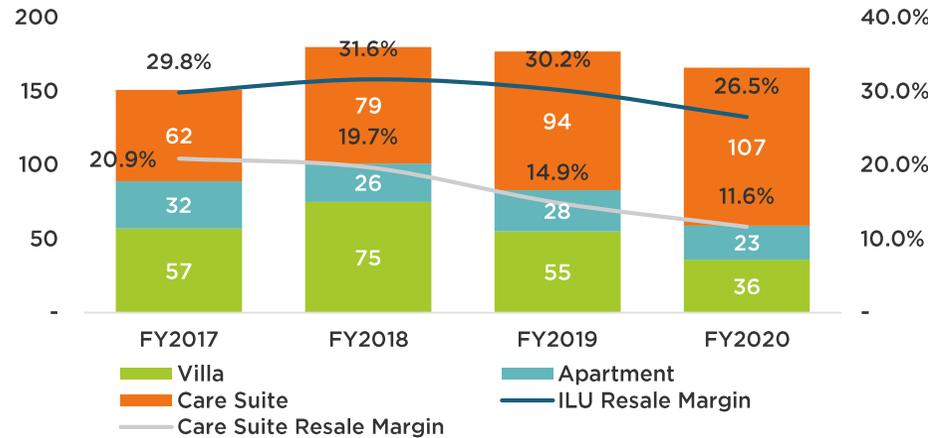

Despite COVID-19, Oceania recorded 355 total ORA sales in FY2020, an increase of 45 units and care suites (or 15%) on FY2019 (310 units and care suites).

- Continue to see strong growth in DMF in the Village segment as developments sell down and resales occur at a higher price point.
- As previously mentioned, ORA sales volumes (and ultimately realised resale gains and development margin) heavily impacted by COVID-19 in the later months of FY2020.
- See further analysis of margins and volumes on the following pages.

# Village segment – key indicators

Resale prices for all ORA products were above FY2019. Closing villa and apartment stock above historical levels as a result of the timing impact of sales delays caused by the COVID-19 lockdown period. However, sales applications are also 39% higher at 30 June 2020 compared to 30 June 2019.

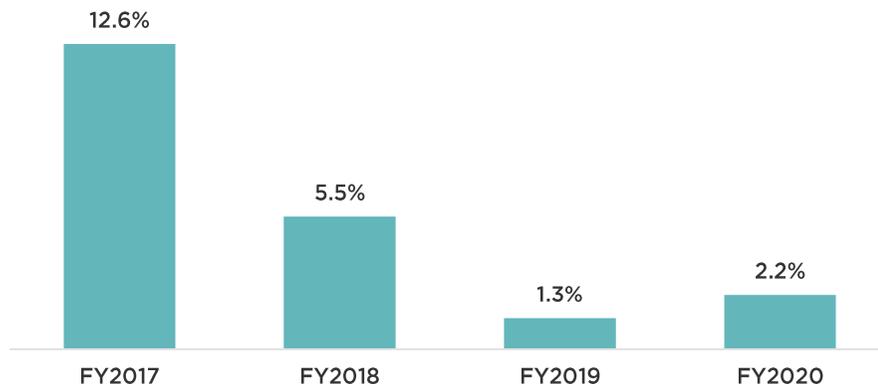

## Resales volumes and margins

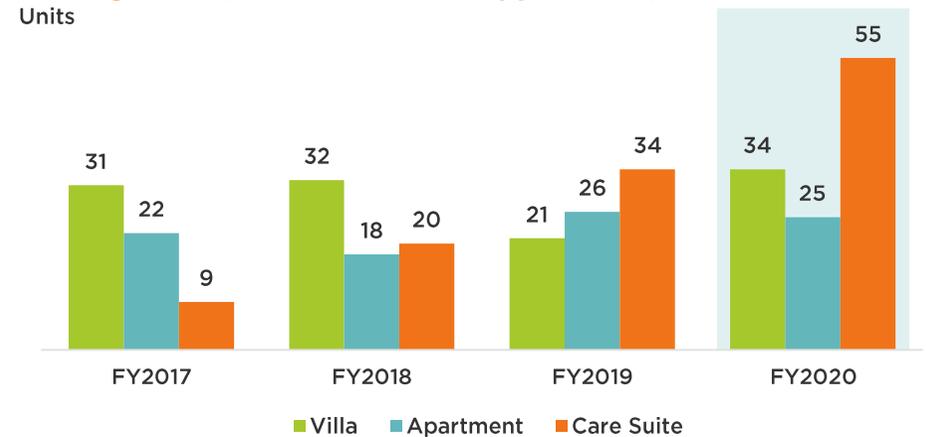

## Resales prices

## Resales Prices vs CBRE Valuation Assumption

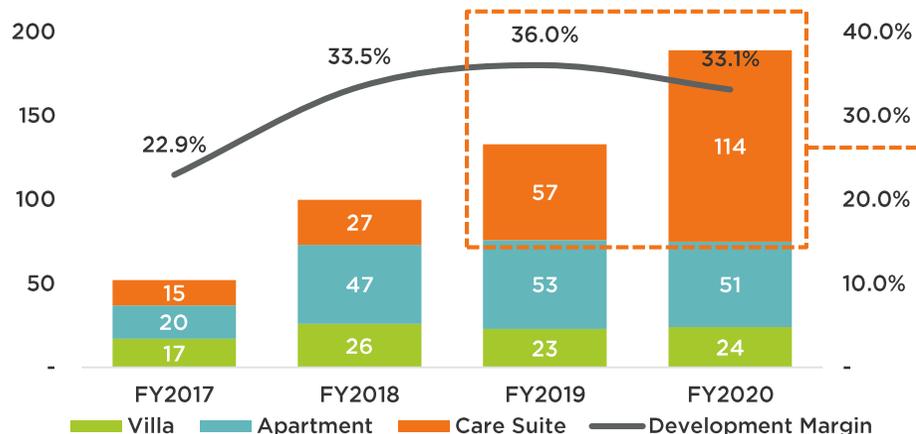

## Closing Stock (incl. stock under application) – Resales

# Developments – key indicators

Care suites	-	30	159	90
<b>Total</b>	<b>46</b>	<b>131</b>	<b>272</b>	<b>176</b>

**New care suite sales volume doubled to 114 in FY2020 (57 in FY2019).**

- 90 care suites completed at Awatere during FY2020.
- 86 villas and apartments completed across Meadowbank (Stage V), Gracelands, Elderslea, Whitianga and Woodlands in FY2020.
- 217 units and care suites are scheduled to complete in FY2021.
- Development margins in recent years reflect sale of premium Auckland sites, namely Meadowbank and The Sands. Margins are expected to moderate going forward as we sell down sites in regional areas.
- Villa prices reflect the sell down of new villas at Elderslea, Gracelands and Elmwood.
- Average apartment price of \$1.1m reflects the new apartments sold at The Sands and Meadowbank.
- Care suites sales include the premium care suites at Meadowbank and The Sands (in Auckland), The BayView (Tauranga) and Awatere (Hamilton). Average price also includes conversions at other locations.

# Cash flow

Operating cash flow of \$99.4m for FY2020 was ahead of the \$89.3m in FY2019 due to higher cash proceeds from sales at new developments.

<b>Cash and cash equivalents at end of period</b>	<b>17.6</b>	<b>22.8</b>	<b>(5.1)</b>	<b>18.3</b>

- First time sales receipts at development sites of \$121.4m (c.f. \$75.5m in FY2019) drove an increase in operating cash flow.
- The rental payment of \$19.2m for the right of use asset relates to the arrangement at Everil Orr. An equal receipt is included in receipts from new ORAs.
- Development capex lower on FY2019 as a result of the COVID-19 enforced lockdown of development sites.

## Operating cash flow

NZDm

# Balance sheet

Total assets increased by \$149m from FY2019 driven by growth in the value of retirement village and care properties.

- The NAV reflects the value of existing sites, plus the land and WIP at development sites. As such, the present value of net development cash flows and future earnings at development sites are excluded.

# Capital structure

Gearing of 35.1% as at 31 May 2020. Sufficient bank facilities in place to execute our development pipeline. New Facility C secured to provide additional liquidity, while retail bond remains a priority in order to provide diversity of funding and tenor.

## Net Debt

Net debt	\$322.1m	\$248.2m
Net debt / (net debt + equity)	35.1%	28.9%
Loan to value ratio	33.3%	27.6%

- Bank facility limits are interchangeable with balances related to land acquisitions and consenting activity transferred from the General Facility to Development Facility on commencement of development.
- Facility C was secured during the COVID-19 Alert Level 4 Lockdown, providing an additional \$70m of liquidity for 18 months.
- Oceania noted at its interim results that a retail bond was being explored to provide diversity of funding and tenor. Whilst this was unable to be executed during FY2020 as a result of COVID-19, this continues to be examined and remains a priority for FY2021.

# 06 Embedded value

The embedded value in our portfolio has increased 4.3% from FY2019 to \$216.8m as at FY2020 and will underpin the future realisation of cashflows from deferred management fees and resale gains.

## Embedded Value

NZDm

- Embedded value in Oceania's portfolio is \$216.8m, up 4.3% on FY2019.
- Embedded value includes:
  - \$126.3m of DMF cash flows to be realised; and
  - \$90.5m of resale gains.
- The growth in embedded DMF reflects the growth in our portfolio, migration to our standard contractual terms at existing villages and a higher price point for the sale and resale of units and care suites.

## Summary of Embedded Value Calculation

NZDm	FY2020	FY2019	FY2018
Estimated sale/resale price of all Units <sup>1</sup>	923.9	829.4	604.8
less: Unsold stock <sup>2</sup>	(234.3)	(250.4)	(91.8)
less: Resident liabilities (contractual)	(472.9)	(371.1)	(312.4)
<b>equals: Embedded value</b>	<b>\$216.8</b>	<b>\$207.9</b>	<b>\$200.5</b>

1. Calculated as the current/estimated sale or resale price of all units/care suites as determined by CBRE – note FY2020 as at 30 April 2020. The FY2018 figure has been adjusted for the divestment of Dunblane Village.

2. Value of unsold stock represents the sales prices of units/care suites which are not under contract, as they are either newly constructed or have been bought back from the previous outgoing residents.

# 07 Capital expenditure

Development capital expenditure was lower than FY2019 as a result of the COVID-19 enforced lockdowns of development sites.

1. Net Buybacks is the difference between the gross ORA payments made in relation to units bought back (and not resold) during the year and the gross ORA receipts from units resold during the year that were bought back in prior financial years.

# 09 Definition of Underlying NPAT

## Underlying Profit (or Underlying NPAT)

Underlying Profit is a non-GAAP measure used by the Group to monitor financial performance and is a consideration in determining dividend distributions. Underlying profit measures require a methodology and a number of estimates to be approved by Directors in their preparation. Both the methodology and the estimates may differ among companies in the retirement village sector that report underlying financial measures. Underlying profit is a measure of financial performance and does not represent business cash flow generated during the period.

Oceania calculates Underlying Profit by making the following adjustments to Net Profit after Tax:

- Removing the change in fair value of investment properties (including right of use investment property assets) and any impairment or reversal of impairment of property, plant and equipment;
- Removing any impairment of goodwill;
- Removing any gains or losses from the sale or decommissioning of assets;
- Removing any rental expenditure in relation to right of use investment property assets;
- Adding back the Directors' estimate of realised gains on resale of occupation right agreement units and care suites ;
- Adding back the Directors' estimate of realised development margin on first sale of new ORA units or care suites following the development, or conversion of an existing care bed to a care site or conversion of a rental unit to an ORA Unit; and
- Adding back the deferred taxation component of taxation expense so that only current tax expense is reflected.

## Resale Gain

Directors' estimate of realised gains on resales of ORA units and care suites (i.e. the difference between the incoming residents ORA licence payment and the ORA licence payment previously received from the outgoing resident) is calculated as the net cash flow received, and receivable, at the point that the ORA contract becomes unconditional and has either 'cooled off' or where the resident is in occupation at balance date.

## Development Margin

The Directors' estimate of realised development margin is calculated as the cash received, and receivable, in relation to the first sale of new ORA units and care suites, at the point that the ORA contract becomes unconditional and has either 'cooled off' or where the resident is in occupation at balance date, less the development costs associated with developing the ORA units and care suites.

- Construction costs directly attributable to the relevant project, including any required infrastructure (e.g. roading) and amenities related to the units (e.g. landscaping) as well as any demolition and site preparation costs associated with the project. The costs are apportioned between the ORA units and care suites, in aggregate, using estimates provided by the project quantity surveyor. The construction costs for the individual ORA units or care suites sold are determined on a pro-rated basis using gross floor areas of the ORA units and care suites;
- An apportionment of land valued based on the gross floor area of the ORA units and care suites developed. The value for Brownfield development land is the estimated fair value of land at the time a change of use occurred (from operating as a care facility or retirement village to a development site), as assessed by an external independent valuer. Greenfield development land is valued at historical cost; and
- Capitalised interest costs to the date of project completion apportioned using the gross floor area of ORA units and care suites developed.

Development costs do not include:

- Construction, land (apportioned on a gross floor area basis) and interest costs associated with common areas and amenities or any operational or administrative areas.

The Directors' estimate of development margin for conversions of care beds to care suites and rental units to ORAs is calculated based on the difference between the ORA licence payment received on the settlement of sales of newly converted ORA units and care suites and the associated conversion costs. Conversion costs comprise:

- In the case of conversion of care beds to care suites, the actual refurbishment costs incurred; and
- In the case of conversions of rental units to ORA units, the actual refurbishment costs incurred and the fair value of the rental unit prior to conversion.

# 10 Glossary

## Care Suite

A room or studio certified for the provision of care by the Ministry of Health which has been licensed under an ORA.

## Continuing Operations

Earnings from continuing operations excludes the earnings from sites divested in FY2019 in all reporting periods.

## DMF

Deferred Management Fees, charged under an ORA, of a maximum of 30% of the Occupation Licence Payment, which are deducted from the refund paid to the departing resident upon resale of the unit or care suite. These are in consideration for the right to use communal facilities etc over the entire length of stay.

## DRP

Dividend Reinvestment Plan

## HCA

Health Care Assistant

## HFS

Held for sale

## ILU

Independent living units (villas and apartments) licensed under an ORA.

## IP

Investment Property

## IPO

Initial Public Offering (of shares in Oceania)

## MoH

Ministry of Health

## NPAT

Net Profit After Tax

## Net Promoter Score

A globally recognised metric for measuring customer satisfaction, the Net Promoter Score system is designed to gauge customers' willingness to recommend a product or service to others.

## ORA

An occupation right agreement that confers on a resident the right to occupy a unit or care suite subject to certain terms and conditions set out in the agreement.

## PAC

Premium accommodation charge on a care bed for accommodation provided above the mandated minimum.

## PPE

Property, Plant and Equipment

## PPGR

Property Price Growth Rate

## Resale Margin

Resale gain, as included in the definition of underlying profit, divided by the ORA licence payment previously received from the outgoing resident.

## RN

Registered Nurse

## Unit

Includes independent villas and apartments.

## WIP
